

Poem of Nature

What am I? I am me

What is me? It is mind

What is mind? It is never here

Where it is? It is nowhere

Where is nowhere? It is now-here

So, mind it's now-here and it is nowhere?

It is everywhere. It is everything

What is God? It is the same thing

What is thing? It is no-thing

It is matter. It does not matter

Mind and matter they don't matter

What does matter?

It is You

What is You? It is not me

Why is that? Because of me. I screwed it up

What did you do? You don't want to know

Why is that? Because I signed a piece of paper

What is paper? It is dead wood

What is dead wood? It is dead Nature

Why kill Nature to make paper?

Why make paper? To make money

What is money? Ink and paper

What is ink? It does stink

How do you know? You don't want to know

Why is that? I signed another piece of paper

What is mind? It is mental

What is mental? Institution

Is tuition. Why tuition?

I lost my shirt. What is shirt?

It is dirt. What is dirt? It sticks to shirt.

What is tuition? It is borrowed money.

Where did you borrow it? I borrowed it from Nature

What is tuition? Brainwashed my mind

What is brainwashed? It is shower

What is money? It is power

What is power? It is shower

Shower of money

What is money? It is dead Nature

Why need money? To buy dead Nature

So, you use dead Nature to buy dead Nature?

That is what we do

You make money from ink and paper

You use ink to sign a paper

So, sign and money are one and the same

What is sign? It is a sign

A sign from what? A sign from God

What does he say? Life is a flow

Where is it going? It is going down low.

It is going downhill.

Why down low?

Because we keep killing Nature

What am I doing? I am using words
What are words? Words are sounds
What are sounds? Sound is vibration
What is vibration? Vibration is disturbance
What is disturbance? Disturbance is a wave
A wave of what? A wave of God
To wipe us out if we don't stop killing Nature

Do you want more?

A word does not stand on its own merit. It needs defining by other words.

How can you help others if you can't stand for yourself.

A word maps to any other word. It is a jungle. It is a zoo. It is madness. It is mind.

It is out of mind.

What is money? It is riches

What is riches? It is bitches

It is witches for killing Nature

What is Nature? It is your hand

The hand that feeds you

What is hand? It is your body

Why kill the body? Because we are mind

We are out of mind

Isn't that you? That is what I am

That is where I want to be

Why is that? So, I don't become mind. So, I don't kill Nature

Are you saying we are out of mind and you are mind?

Those are your words. That is all you got. Just empty words

What is water? Water is you.

What is you? I am my mind

So, mind is water? Never mind

It is watered down

What is water? Water is flow

Where is it going? It is going with Nature

It is going downhill. It is going down low

Where are we going? We are going Up

We are using dead Nature to go to Mars

To kill

Another Nature
