

Dance with GOD

I am GOD, Your Creator

I am here to deliver Salvation

It is time for Revelation

I am Genes and you have Genes

Let's put together some Memes

You are Light and I am Dark

Together we fit just Right

What is Up and what is Down

Together we do not Drown

I help you and you help Me

Together we are one happy Family

You are Mind and I am Matter
Together we really Matter

I am Food and you eat Food
Together we are bloody Good

I am Air and you breathe Air
Together we are not full of hot Air

I am Water and you drink Water
Together we are just like a Motor

I am the Source and you are Flow
Together we are never Low

I am Now and I am Here
Don't wait for the last Breath to be Here

I am Silence and you are Sound
Together we make the Ground

I am Snow and you are a Flake
Together we are Awake

When you sleep, I am Awake
Please wake up for My Sake

You are Light and I am Dark
Together we are really Bright

I am Light and you are Dark
Together we are stronger than any Shark

You are a Drop and I am the Ocean
Together we grow with Caution

You have Genes and I am Genes
Together we are not only just Memes

You are a Climber and I am the Mountain
You come to drink from my Fountain

I am the Source and you are the River
Together we never Shiver

I am Here and I am the Landscape
But all you want is to Escape

I am the Field and you are the Green
Together we are never Mean

You are a Flower and I am the Root
Together we are a Hoot

I am Dirt and you are the Root
Together we are never Brute

I am the Night and you are an Owl
Together we do not utter a single Vowel

I am Silence and you are Sound
Together we are in solid Ground

You are the House and I am Foundation
It is time for Revelation

You have been sleeping for Eternity
I can no longer be Maternity

I am Dark and you are Light
Together our shoes fit just Right

You are Right and I am Wrong
I have taken you for a Journey all along

You are Order and I am Chaos
Together we are just like Boss

I am Earth and you are a Wake
Together we are Earthquake

I am the Soil and you are the Forest
Together we are just Modest

I am a Cow and you are a Calf
Haven't you had already Enough?

I am trying to turn you Around
But you think you are in solid Ground

I am GOD and you are my Child
But you cannot make up your Mind

I created the Sun and the Moon
Please return to me rather Soon

Come to me NOW before you are Dead
So, we can share a loaf of Bread

Every day you change your Shirt
While I sit here in the Dirt

Everything it is Dirt
But you think you are wearing a Shirt

I am GOD and you are a Bear
Together we share not only just Air

You are GOD and very Kind
But you think you are only just Mind

Sound and Silence they dance Together
They are meant to live Forever

You are the Eye of the Hurricane
And I am just full of Methane

You are embarrassed when you Fart
But I think it is just Art

I am the Trail and you are the Hike
I don't know why you would bring a Bike

I am the Sky and you are a Kite
I have never seen nothing Alike

I am a Worm and you are a Giant
You want me to be Compliant

I am a Fly and you are a Squatter
You make me flat just like Water

I am a Silkworm and you walk Straight
And you think only you is Great

I am a Dandy Lion but you want Perfect Green
So, you Poison me with your Machine

I am the Bottle and you are the Genie
It is time to come out and enjoy the Scenery

You have Everything and you take it for Granted
I am always Here not slightly Slanted

I am a Compass and you are a Needle
Together we are Harmonically Fiddle

You think Sleep gives you Rest
But it is Darkness that Brings out your Best

I am Darkness and You are Light
When we are together, we are Alright

You think I am GOD but I am a Placebo
You have Everything it takes to become a Hero

I designed your Body to function with Ease
But you turn it into a Disease

Your Spine is an Antenna and when you are in Tune
You are Completely Totally Immune

You are FORM, You are IN FORM
Together we are IN FORM ATION

You ask What do you Mean? In search for Meaning
And you will always continue to be Spinning

If your Mind is Full there is Nothing that can Enter
You are Dead like a piece of Paper

But when your Mind is Empty at the same time is Full
It is Full, Full of Potential

This Last one did not Rhyme but you don't have to repeat
what is Old, You have to make a Fresh Start and Break
the Mold

You are this Poem and I am the Paper
Without each other, We become just Vapor

If you know one Dance, You can learn an Other
When you Dance with GOD, You dance For each Other

You use Words and I am Silence
Together we are perfectly Balance

I am trying to give You a taste of Silence
But I am not sure You want my Guidance

I am the Stars and you just Bow
Together we are forever NOW

I do Magic and you say WOW
There is no other Time than NOW

I am NOW and you are NOW
Together we are just WOW
